**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF VEGETABLE BEETLE ADULT STAGES
IN SPECIFIED BRASSICA VEGETABLE CROPS**

PERMIT NUMBER – PER14596

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 1 OCTOBER 2014 TO 30 SEPTEMBER 2024

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

DAVID GRAYS CHLORPYRIFOS 500 (APVMA No. 42284)
NUFARM CHLORPYRIFOS 500 EC INSECTICIDE (APVMA No. 32902)
PLUS OTHER REGISTERED PRODUCTS
Containing: 500 g/L CHLORPYRIFOS as the only active constituent.

Directions for Use:

Crop	Pest	Rate
Brassicas - Broccoli - Brussels Sprouts - Cabbage - Cauliflower	Vegetable Beetle (Adults) (<i>Gonocephalum</i> spp.)	5 kg prepared bait/ha

Critical Use Comments:

Bait Preparation:

Mix 40 mL product with 50 mL vegetable oil. Add mixture to 1 kg cracked wheat or sorghum and mix thoroughly. Gloves should be worn when preparing and applying baits.

Monitoring:

Bait may be used to monitor pest presence before seeding or transplanting. Bait stations of approximately 3 cm in diameter may be placed equally across the field at a rate of 20 per hectare. Each station should be marked to enable relocation.

Application:

Apply bait once near crop emergence or transplanting via a fertiliser spreader or similar applicator. Bait must remain on the surface.

DO NOT feed or expose treated bait to wildlife and domestic animals, particularly birds.

Withholding Period:

Harvest: Not required when used as directed.

Jurisdiction:

WA only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

Other Matters

Continued issuance of this permit is subject to the outcomes of the current APVMA review of chlorpyrifos. This permit may be impacted by the outcomes of this review.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: Permit amended to update holder details. Permit version 2 issued 2 May 2018.
