

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF TOMATO POTATO PSYLLID IN FRUITING
VEGETABLES, POTATOES AND SWEET POTATOES**

PERMIT NUMBER – PER84805

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 6 DECEMBER 2017 TO 31 DECEMBER 2027

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

BENEVIA INSECTICIDE (APVMA No. 66684)

Containing: 100 g/L CYANTRANILIPROLE as the only active constituent.

RESTRAINT:

DO NOT apply if heavy dew is present on crops, if rainfall is expected within 2 hours of application, or if heavy rainfall likely to generate run-off is expected within 48 hours of application.

DO NOT treat plants grown for transplanting. Not for use in nurseries, plant propagation houses, or greenhouses by commercial transplant producers on plants being grown for transplanting.

DO NOT use on container or hydroponic grown crops.

Directions for Use:

Crop	Pest	Rate
Fruiting vegetables, including peppers, tomatoes and eggplants (except sweet corn)	Tomato potato psyllid (<i>Bactericera cockerelli</i>)	500 mL/ha
Potatoes Sweet potatoes		

Critical Use Comments:

- Apply immediately upon discovery of the psyllid pest. *Benevia* is more active against newly developing infestations where nymph stages predominate. Apply sequential treatments to maximise efficacy.
- Apply in sufficient water volume to achieve through coverage of all plant foliage.
- DO NOT apply more than 2 applications per crop.
- DO NOT apply less than 7-10 days after the initial treatment.
- Toxic to bees. DO NOT apply while bees are actively foraging in the crop to be treated.
- Refer to product label for directions for use of surfactants/wetting agents. DO NOT use *Activator** or *BS1000** (or equivalents) as it may cause crop phytotoxicity.

Withholding Period:

Harvest: *Fruiting vegetables*: DO NOT harvest for 1 DAY after application.

Potatoes and Sweet Potatoes: DO NOT harvest for 14 DAYS after application

Grazing: DO NOT graze or cut for stock food.

Jurisdiction:

All States and Territories, except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation means a permit is not required to legalise this off-label use in that State.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

To Avoid Crop Damage

The sensitivity of sweet potatoes to be treated under this permit has not been fully evaluated. It is advisable to only treat a small area to ascertain the reaction before treating the whole crop.

Export of treated produce

Suitable Maximum Residue Limits (MRLs) or import tolerances for produce treated with Benevia Insecticide may not be established in some countries. Consult with your exporter or DuPont before applying Benevia Insecticide to crops from which produce is to be exported.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 05/10/2022 – Permit updated to add restraints, crop safety warning and s161 statement. Surfactant statement updated. Permit updated to current standard of format. Permit expiry extended to 31/12/2027. Permit issued as Version 2.
