

Farm Biosecurity Planning

The what, the why and the how

National Vegetable
Extension Network

VICTORIA - NORTHERN,
WESTERN & SOUTH EASTERN

Assessing on-farm biosecurity management planning from a 'ground-up' approach, this hands on workshop will provide participants with the latest industry updates in biosecurity management, as well as support the development of an on-farm biosecurity management plan.

Topics and speakers will include:

- US Plant Biosecurity Study Tour shared lessons - Dr Jessica Lye, AUSVEG Biosecurity Officer
- LAMP Soil Analysis - undertaking leaf or soil pathogen diagnostic using portable PCR - Dr Brendan Rodoni, Agriculture Victoria Biosciences Research Leader (Microbiology)
- Developing an on-farm biosecurity management plan - Dr Jessica Lye, AUSVEG Biosecurity Officer
