

# Spray Application Workshop

National Vegetable  
Extension Network

VICTORIA - NORTHERN,  
WESTERN & SOUTH EASTERN

Partnering with Syngenta and the Integrated Crop Protection Project (ICP), the VegNET program is delivering a spray application workshop to vegetable growers, spray operators and advisors.

Presented by Scott Mathew, Senior Solutions Development Lead with Syngenta Australia, the workshop will include:

- Field demonstrations of equipment and results using ultra violet (UV) dye to assess coverage
- Technical presentations and Q&A session over a free BBQ tea.
