(Pachyrrhizuz erosus).		840 g/kg	34 – 129g	215 - 900g
		875 g/kg	31 – 123g	205 – 864g
		900 g/kg	30- 120g	200- 840g

Critical Use Comments:

- DO NOT allow spray including any drift to contact any part of the crop as severe injury or crop destruction may result.
- Only apply with shielded sprayer between the crop rows or near other emerged crops to avoid crop damage from direct spray and drift.
- DO NOT spray when the wind is light and variable in strength and direction.
- DO NOT spray when wind speed is above 15 km/h.
- After the first application, if the control is less than adequate and resistance is expected then the second application should not be applied.
- Add wetter at recommended rates.

Withholding Period:

Not required when used as directed.

Jurisdiction:

ALL STATES except VIC.

Note: Victoria is not included in this permit, as their Control-of-Use legislation does not require a permit to legalise this off-label use in that state.

Additional Conditions:

This Permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Issued by the Australian Pesticides and Veterinary Medicines Authority
