

Breakdown on composts

On-farm discussion

National Vegetable Extension Network

VICTORIA - NORTHERN,
WESTERN & SOUTH EASTERN

A rising cost of fertiliser inputs and a greater understanding of the importance of soil health has prompted interest in the use of composts as a soil ameliorant. This VegNET event will discuss the options, costs, how to ensure quality and outline what's involved to meet your food safety requirements.

Speakers to include:

- **On-farm lessons and international observations** - Nathan Free, Managing Director Alkira Organics and 2015 Nuffield Scholar
- **Manures, Composts and managing food safety** - Dr Jenny Ekman, Applied Horticulture Research
