

### 13. GLOSSARY/DEFINITIONS

**Block** means an identifiable area of land on which potatoes are grown on a linked parcel of land and blocks are detailed on the business' ICA\_44 Property Plan. A parcel of land may consist of one or more blocks.

**OR**

**Block** means an identifiable area of land on which potatoes are grown on linked blocks on an infested parcel of land and must be operating under an approved accreditation with Agriculture Victoria as per the below management requirements and ICA-44.

**Infested Land** means any parcel of land with a known PCN infestation.

**Linked Land** means any parcel of land which has linkages to PCN infested land, this includes land that -

- was operated by a person who was also farming land that was reclassified as Infested Land due to the detection of a viable PCN population; or
- was operated by a person contrary to PCN permit conditions; or
- was farmed using equipment which has been used on Infested Land; or
- borders Infested Land; or
- receives drainage from Infested Land; or
- was planted with potatoes sourced from land with a positive PCN detection;

**OR**

- is a linked block on an infested parcel (see management requirements below).

**Management of PCN linked blocks and infested land within the boundaries of a single parcel of land** means an infested parcel of land containing both a segregated infested component of land and linked block/s under potato production, operating under an approved accreditation as per below management requirements.

**Management requirements;**

- Operate under a current approved accreditation with Agriculture Victoria; requiring

**Infested land area;**

- (a) is segregated/defined through the installation of a permanent barrier fence; and
- (b) planted to pasture to restrict movement of soil; and
- (c) an annual solanaceous weed and self-sown potato plan is implemented; and

**Linked land area;**

- (a) is sampled, tested and found free of PCN in accordance with national testing standard on xxx separate occasions; and
- (b) only PCN resistant potato cultivars<sup>1</sup> are grown; and
- (c) an annual solanaceous weed and self-sown potato plan is implemented.

**The Department** means Agriculture Victoria.

**Parcel/parcel of land** means the smallest, individual piece of land that can be sold separately. Parcels of land are described by standards parcel identifiers.

---

<sup>1</sup> Based on recommendations contained within the certified seed potato buyers guide

**PCN** means the pest Potato Cyst Nematode, *Globodera rostochiensis*.

**PCN Control Area** means an area declared by Order under the Act to be a Control Area for the purpose of preventing the spread of PCN.

**PCN Un-infested Land** means any parcel of land which is not classified as a Linked Land; and

- with no-known PCN infestation; or
- with no viable PCN eggs detected during reclassification process.
